CAR CARE**

Products for professionals

Description:

Cartec Perfect Polish is an ideal combination of polish and wax in one. It restores the paintwork to its original deep gloss and provides good protection. Its polishing properties remove light scratches. It also easily removes tar residues from the paintwork. Cartec Perfect Polish can be used both manually and by machine. Perfect Polish contains silicones, but these do not cause problems at body shops.

Product benefits:

- ✓ Fast results using this 3 in 1 product
- ✓ Very easy to use
- ✓ Deep gloss and great protection
- ✓ Also able to be processed in direct sunlight
- ✓ Still easy to buff after 24 hours
- ✓ Quickly removes light scratches
- ✓ Bodyshop safe

Application:

Cartec Perfect Polish is used on paintwork to restore its original colour, to leave a good finish and protection. It can also be used on rims.

Instructions for use:

⚠ Cartec Perfect Polish can leave white residues on plastic parts. Preferably tape the plastic. Store frost-free.

1. Apply Cartec Perfect Polish to the paint surface with a clean, soft cloth (such as 3317/51) or an application sponge (3211/4) in a circular motion. In case of scratches and soiling, apply more pressure and continue polishing until removed.
2. Do not buff the product immediately, but allow the film layer to dry for a couple of minutes.
3. Buff to a high gloss with a soft, clean cloth (such as 3317/51). This is done best by starting with small circular motion and increasing the circle. interior, always finish with a cloth soaked in clean water or, preferably, with a spray extraction machine.

Tips & Tricks:

- ✓ Cartec Perfect Polish can be rubbed out as soon as a finger can be written into the film layer and it feels dry to the touch.
- ✓ Easily removes black streaks from caravans and motorhomes.
- ✓ Can also be processed with a dual action polisher. For this, use the yellow Cartec pad (RF2126 for ø150mm) or the white Cartec pad (RF2156 for ø150mm).
