CAR CARE**

Products for professionals

Description:

Cartec Motor Fresh gives the car's engine compartment a new and neat appearance.

Cartec Motor Fresh is available as a silicone-free and silicone-based product.

Product benefits:

- ✓ Quick to apply
- ✓ Plastic and rubber parts like new
- ✓ Non greasy
- ✓ Solvent-free
- ✓ the product spreads by itself

Application:

Cartec Motor Fresh is used on all parts in the engine compartment.

Instructions for use:

⚠ Shake well before use.

1. Clean the engine compartment thoroughly beforehand with Cartec Engine Cleaner MV40 (1228).
2. Let the engine compartment dry as much as possible or wipe off the water with a cloth. Then spray Cartec Motor Fresh on all parts of the engine with a pressure pump or hand-held sprayer.
3. Cartec Motor Fresh distributes itself and does not need to be rubbed out. Close the bonnet and, depending on the ambient temperature, allow the product to dry for 20-30 minutes.
4. Remove any excess product applied with a clean cloth.

Tips & Tricks:

- ✓ Apply Cartec Motor Fresh after cleaning and before starting to polish and clean other parts of the exterior. This is in connection with mist that may get onto the paintwork or windscreen during application
- ✓ First clean rubber mats with Cartec Interior Cleaner (1205) and allow to dry. Spray Cartec Motor Fresh on the mat(s). Let it dry thoroughly and rub with a clean cloth to prevent it from becoming slippery.
