Products for professionals

Description:

Cartec Wheel Cleaner quickly and effectively removes black brake dust and traffic dirt from rims.

Product benefits:

- ✓ Strong cleaning power
- ✓ Acid-free product
- ✓ Effortlessly removes stubborn brake dust
- ✓ Removes street dirt at the same time
- ✓ Works without brushing when high pressure cleaning
- ✓ Viscous product allowing longer penetration time

Application:

Cartec Wheel Cleaner is specially developed for extreme cleaning of rims. The special formula loosens stubbornly stuck black brake dust.

Instructions for use:

⚠ Use only in open air or well-ventilated area. Do not use in full sunlight. Do not use on hot or warm rims. Do not allow product to dry on stainless steel/aluminium. Always check the product in an inconspicuous place before use to avoid possible damage. Do not use on diamond cut alloy wheels, use Cartec Iron Wash (1804) instead.

1. Spray the tyres and rims with Cartec Wheel Cleaner using a pressure pump or sprayer.
2. Allow the product to dwell for 1-2 minutes, depending on the degree of soiling. Then thoroughly clean the rims and tyres with a high-pressure sprayer.
3. Check that all contamination has been removed. If not, repeat the treatment and treat the tyres with the Cartec Dynamic Tyre Brush (3038/02) and the rims with the Wheelsan brush (3039/4).

Tips & Tricks:

- ✓ Use Cartec Iron Wash (1804) for very sensitive rims.
- ✓ Treat the tyres afterwards with Cartec Vinyl (1105) for a clean finish on the tyres.
