

EXCELLENT PTFE WAX

**INGENIOUS
CAR CARE**
Products for professionals

Description:

Cartec Excellent PTFE Wax is a reliable PTFE-based wax that applies a protective film layer to the vehicle, for long-lasting durability and solid protection. The wax is specially designed for easy application without leaving residue on plastic or rubber upholstery, and leaves a shiny protective film on the paintwork.

Product benefits:

- ✓ No chalk or dust residue for a clean finish.
- ✓ Provides an outstanding glossy finish
- ✓ Effortless application and removal.
- ✓ Leaves no white marks on trim.

Application:

Cartec Excellent PTFE Wax is used on clean, polished and/or new paintwork to provide a glossy finish and protection.

Instructions for use:

⚠ Store frost-free.

1. Shake well before use. Apply Cartec Excellent PTFE Wax to the paint surface with a clean, soft cloth (such as 3317/51) or an application sponge (3211/4) in a circular motion.
2. Do not buff the product directly, but allow the film layer to dry for a while.
3. Buff to high gloss with a soft, clean cloth (such as 3317/51). This is best done by starting with small circular motion and increasing the circle.

Tips & Tricks:

- ✓ Always use a clean cloth to avoid scratching the paintwork.
- ✓ Cartec Excellent PTFE Wax can also be applied with a polisher. In that case, always process the product at a low speed.
- ✓ Contains silicones.
