Products for professionals

## Description:

Cartec All Purpose Cleaner is a versatile cleaner for various applications, for both the exterior and interior of the vehicle. It easily removes insects, tree resin, oil, grease and strong dirt.

## Product benefits:

- ✓ Removes flies, tree resin, oil, grease, nicotine and strong dirt
- ✓ Can also be used as a cleaner of nicotine deposits
- ✓ Does not damage aluminum parts such as window frames and door handles
- ✓ > 95% biodegradable

## Application:

Cartec All Purpose Cleaner is used on the exterior and interior of the vehicle to remove insects, tree resin, oil, grease, nicotine and strong dirt. The product also works on other soiled surfaces such as floors and furniture.

## Instructions for use:

**⚠** Always check the product in an inconspicuous place before use to prevent possible damage. Do not use in direct sunlight and do not let the product dry.

1. Dilute pure to 1:10 with water according to the contamination. Spray the parts to be cleaned with Cartec All Purpose Cleaner using a pressure pump or hand sprayer. Let it dwell for 1-5 minutes.
2.
  - a. Exterior: Remove the pollution with a high-pressure washer. First remove the coarse pollution with a high-pressure cleaner before you further treat the surface with e.g. a Cartec shampoo.
  - b. Interior: work the soiled surface with a Cartec microfiber glove (3043/8) or cloth. When used in the interior, always finish with a cloth soaked in clean water or, preferably, with a spray extraction machine.
3. Rinse with clean water until contamination and soap residue are gone.

## Tips & Tricks:

- ✓ For heavily soiled car headliner (nicotine) dilute Cartec All Purpose Cleaner 1:10 and treat the headliner with a Cartec Cleaning Gun (3119/01). This makes nicotine easier to remove.
- ✓ To clean hard-to-reach places, such as a grill and air vents, emblems and tank caps, Cartec All Purpose Cleaner works ideally in combination with the exterior Cartec Detailing Brush (3039/10).

## Required items:

3013/1

3017/8

3043/8
