Products for professionals

Description:

Insect Remover quickly and effectively removes stubborn insect debris.

Benefits:

- Effectively loosens insects from surfaces
- Use as a pre-cleaner
- Safe to use on chrome and plastic parts

Application:

Insect Remover is specially developed for effectively loosening insects when washing the car. In addition, the product is also effective on street dirt and contaminated parts.

Directions for use:

Spray the Insect Remover directly onto where insects are to be removed. Leave the product on for 1 to 2 minutes and remove the remnants with a soft sponge or cloth. Rinse with clean water. Insect Remover is safe to use on aluminum and chrome. DO NOT use in direct sunlight. DO NOT allow to dry on any surface.

Tips & Tricks:

In addition to insects, can also be used as a pre-cleaner.
