CAR CARE**

Products for professionals

Description:

Bumper & Tyre Care is a cleaning and protective agent for the plastic bumpers, tyres and all plastic parts on the outside of the vehicle. Gives an “as new” look, dries quickly and is non-greasy.

Benefits:

- Immediately Visible result
- Restores the original appearance of plastic
- Dries evenly and is not greasy
- Tires look like new
- Good protection
- Silky result
- Silicon-based formula

Application:

Bumper & Tyre Care was developed as a “finishing touch” for the treatment of plastic parts, bumpers and tyres of vehicles. The special formula gives these materials a silk-matt and original look. It also protects against weather influences. It can also be used to maintain door rubbers. Especially against freezing in winter.

Directions for use:

Apply Bumper & Tyre Care to the parts to be treated using a Tyre Dressing Applicator or cloth. Allow to soak in, then rub off with a clean cloth or the back of the applicator.

Tips & Tricks:

For small areas or corners, work with the tip of the sponge. If necessary, cut the sponge in half.
